## INTRODUCTION

Eight thousand years ago the supernova of the binary stars WR104 of the Sagittarius constellation created a Gamma Ray Burst (GRB) that is coming towards the Earth.

## EPISODE 1: DESTRUCTION OF THE RUPTURIAN CIVILIZATION

Six thousand years ago the Rupturians destroyed themselves. Their physical bodies disappeared, but their spiritual energy continued, in the form of SOULSTRINGS. The soulstrings are the spiritual force of the Rupturians, manifested without a physical body.

## **EPISODE 2: DISCOVERY OF THE WR104 SUPERNOVA**

At the time of the supernova, the Rupturians sent us a capsule with a recording of the explosion, via a wormhole. The capsule arrived at Earth two thousand years ago, but in those days, nobody found it. Only one Rupturian survived, and he sent us soulstrings to call our attention to the capsule. Once we found the capsule, in a projected hologram, we learned that the GRB is about to hit the Earth in 26 days, causing mass extinction.

### EPISODE 3: DISCOVERY OF THE RUPTURIAN INTERGALACTIC NETWORK (RIN)

In the capsule we find a communications node that allow us to see the recording of the Supernova. The RIN is like an Internet that reaches the Local Group of Galaxies: Milky Way, Andromeda and Triangulum.
